October 2015

The Cabin Addiction Services Group to attend IMTEC medical tourism exhibition in Dubai this October

The Cabin Addiction Services Group, a leading multinational addiction treatment provider, will be participating in this year's International Medical Travel Exhibition and Conference to be held in Dubai, UAE between 7th-8th October 2015.

The event, which will be held at the Dubai International Convention and Exhibition Centre, brings together leading healthcare treatment providers and facilitators in one place – so that practitioners and patients can discover the treatments most suitable for themselves and learn more about the facility that offers them.

The Cabin Addiction Services Group, which has been treating a growing number of clients from the UAE, Oman, Saudi Arabia, Kuwait and Qatar since 2010, will feature its newly established inpatient rehab The Cabin Arabic Treatment Centre, as well as its flagship facility The Cabin Chiang Mai.

Located in the northern Thai city of Chiang Mai, [The Cabin Arabic Treatment Centre](#) offers resort-style accommodation, Halal meals, and a tailor-made treatment programme in the **Arabic language** for individuals suffering from alcohol addiction and drug addictions, as well as co-occurring psychological disorders such as anxiety, trauma and depression. The programme, which takes a culturally sensitive approach is administered by a team of highly experienced, native Arab addiction specialists and there is a 24-hour medical team onsite.

For clients who prefer to receive treatment in the English language, similar facilities and a similar treatment programme are available at the adjacent The Cabin Chiang Mai – which is considered to be Asia's best rehab by the international addiction treatment community. Both centres offer a superior level of client confidentiality.

To learn more about The Cabin's modern, evidence-based addiction treatment model, which is used at all our inpatient and outpatient addiction treatment centres worldwide, and has an independently verified programme completion rate of 96%, please visit us at IMTEC:
