proudly presents

The Cabin Addiction Treatment Model

The Cabin Addiction Treatment Model is an 'all addictions' treatment model. This seminar will focus on how we intergrate CBT, 12 Steps and The 3 Circles to treat both chemical and process addictions in a shorter time span than traditional techniques. The Cabin Addiction Treatment Model uses secular language which is culturally adaptable, to define and plan for abstinence, relapse triggers and recovery actions.

The Cabin Addiction Treatment Model can also individualize treatment planning more effectively for difficult to engage clients such as:

- Chronically relapsing addicts who display severe symptoms of addiction and require longer reduction plans.
- Dual diagnosis clients who need longer term medicating.
- Those with severe pain management issues who require medicating short to mid-term.

Speakers:

Alastair Mordey

Programme Director
at The Cabin Chiang Mai

Prem Kumar Shanmugam

Programme and Clinical Consultant
